

Are MARC records read-only during regens?

- **Product:** Voyager
 - **Product Version:** 8.2.2
-

Question

Are MARC records made read-only when a regen is running?

Answer

Some type of MARC record is typically set to read-only during a regen. Which records depends on the type of regen.

- For bibliographic (bib) keyword and bib left-anchored regens
 - Bib records will be read-only.
 - Bib records can be searched, but cannot be created or updated in Cataloging, Circulation or Acquisitions.
- For holdings(MFHD) keyword and MFHD left-anchored regens
 - MFHD records will be read-only.
 - MFHD records can be searched, but cannot be created/updated in Cataloging, Circulation or Acquisitions.
- For authority left-anchored regens
 - Authority records will be read-only.
 - Authority records can be searched, but cannot be created or updated in Cataloging. Staff in Cataloging, Acquisitions and Circulation will be able update/create bibs and mfhd.
- For headings regens
 - Bib and authority records will be read-only.
 - Bib and authority records cannot be created/updated in Cataloging, Circulation or Acquisitions.

Additional Information

For all regens, staff in Circulation will be able to circulate items, as item records are not affected.
