
Patron Status pull-down box

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 18.01
-

Description:

Where did the 2nd series of statuses come from in the Patron Status drop-down box (I defined the first group, from Faculty on, it's not mine)?

Resolution:

The Borrower Status pull-down box comes from the BOR-STATUS parameter of \$data_tab/pc_tab_exp_field.eng file of data_tab adm library.

To see all cases do:

```
ALEPH>>dt
```

```
ALEPH>>grep ^BOR-STATUS pc_tab_exp_field.eng
```

Additional Information

Version 16, Patron Status dropdownbox
