## How do I change "Voyager Owner" as sender name on emails?

- **Product:** Voyager
  - **Product Version:** 7.1.1
- 

### Question

Our director doesn't like "Voyager Owner" appearing as the sender of records e-mailed from WebVoyage. How do I change it?

The From: field in emails shows "Voyager Owner"

### Answer

1. Log on to the server as root (or become root user).
2. `vi /etc/passwd`
3. Find the entry for the voyager user.
4. Replace "Voyager Owner" with the desired name.
5. `:wq` to exit and save change

### Additional Information

All emails sent by Voyager, including the OPAC, Reporter, etc, will reflect this change.
