

Change Default Results to Brief View ?

- **Article Type:** General
 - **Product:** MetaLib
 - **Product Version:** 4
-

Description:

How can we change the default results display to "Brief View" instead of "Table View"?

Resolution:

The results default display can be set by each individual user in My Research > Preferences.

To set them for all default users, use:

PORTAL-LNG-IN (internal guests) = Preferences seen by affiliated users and logged-in users

PORTAL-LNG-GUEST (external guests) = Preferences seen by unaffiliated users
