

Correcting time on Linux server

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 16.02
-

Description:

The time is wrong on our Linux server. How can we correct it?

Resolution:

Command to see the system time:

```
> date
```

Command to see the HW time:

```
> /usr/sbin/hwclock
```

Command to change the bios clock to the linux time:

```
> hwclock --hctosys
```

Command to change the linux time to the bios time:

```
> hwclock --systohc
```
