

SFX menu should be collapsible by default, out-of-the box

- **Article Type:** General
 - **Product:** SFX
 - **Product Version:** 4
-

Description:

A difference has been found between the default values of the 'collapsible' parameter in the `ctx_object.config` file (>"html_menu" section) in SFX4 to the out-of-the box value in SFX3.

In SFX3 the default value was set to 'Yes' as oppose to SFX4, where it is set to 'No'.

This behavior was brought to the attention of our development team.

Resolution:

Additional Information

collapsible `ctx_object.config` file
