

Recalling an Item

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 16.02
-

Description:

What happens if an item has been renewed before recall?

Resolution:

If an item has been renewed before recall, and recalled due date is later than original due date, the system cancels renewals and returns original due date as the effective due date instead of recalled due date. Note: recall method 2.

Additional Information

recall, renew, due date
