

Finding what Words exist for particular document

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 16.02
-

Description:

How can you see what Words index (z97/z98) entries exist for particular document?

Resolution:

This can be done from v15.2. UTIL-F-1-28 function has been added: "Display word indexing for a single record".

Additional Information

words index, Z97, Z98
