

How to insert question mark in GUI Services

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 20
-

Desired Outcome Goal:

How to insert question mark and other system-reserved signs in GUI Services?

Procedure:

Option 1: Use Generic fix routine (fix_doc_do_file_08) and Fix Catalog Records (manage-37) service.

Option 2: Use escape characters. For question mark, use %3F. See document attached.
