
Cutover phase upgrade Aleph 18 to 20

- **Article Type:** Q&A
 - **Product:** Aleph
 - **Product Version:** 20
-

Question

Is it correct, that only the Oracle data has to be transferred and steps > 999 have to be executed during cutover phase from Aleph 18 to 20?

Answer

Yes. During cutover phase only the Oracle data has to be transferred (e.g. with help of Oracle Datapump) and all steps above > step 999 have to be executed in all relevant Upgrade Express kits.
