

Receipt printer that works with ALEPH

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 17.01
-

Description:

Can you advise on a receipt printer that can be used with ALEPH 500 for printing fines receipt?

Resolution:

We don't make any recommendations on printers (or other hardware). I suggest that you look at the ALEPH-NA archives -- I know there have been a number of postings -- or post a question to the list yourself.
