-

Description:

The PDS login screen does not show the institution name (Yourorg) in the Institution drop-down box.

Why is the institution name not showing?

Resolution:

Upon opening the `tab_service.yourorg` file on the server with `vi`, at the bottom of the screen, the file name appeared like this:

```
"tab_service.yourorg" [dos]
```

This means that the file was probably edited on the pc with, say, Notepad and transferred to the server.

Running the command

```
>> dos2unix tab_service.yourorg
```

fixed this problem.
