

## Does Voyager ILL module work with Ariel?

- **Product:** Voyager
  - **Product Version:** 6.5.3
- 

### Question

Does Voyager ILL module work with Ariel?

### Answer

The Voyager ILL module sends and receives ILL requests for documents that can be disseminated by Ariel, but the module does not participate in the delivery of the documents, only the tracking mechanism associated with the request itself. The Voyager ILL module will track the ILL requests through the copyright compliance functionality but it will not track whether the documents have been distributed.
