Description:

What controls the list of locations available in different areas of Acquisitions?

Resolution:

- * Order Site on PO, Bill To on Invoice: Acquisitions happening locations the operator is authorized for in operator's Acquisitions Security Profile
 - * Intended Location list for the line item (in Copies/Funds): Locations the operator is authorized for in operator's Acquisitions Security Profile
 - * Ledger list for the line item (in Copies/Funds tab of line item): Ledgers associated with the Intended Location
 - * Available locations searchable on Problems list: Locations the operator is authorized for in operator's Acquisitions Security Profile
