
Due time is incorrect

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 17.01
-

Description:

A patron brought an item in for renewal that is due today (Thursday).

The new date was correctly given as 20080327 (1 week as per tab16 configuration).

However, the due hour was incorrect - 1700 when it is supposed to be 2200. It could not be changed.

Resolution:

This is what you have in the sta50 tab17:

!VACATION [June 1 2008 to August 31 2008]

```
STA15 ##### 00 C
STA15 ##### 01 O 0830 1700
STA15 ##### 02 O 0830 1700
STA15 ##### 03 O 0830 1700
STA15 ##### 04 O 0830 1700
STA15 ##### 05 O 0830 1700
STA15 ##### 06 O 0830 1230
ISEMESTER I and II - STA15
STA15 ##### 00 C
STA15 ##### 01 O 0830 2200
STA15 ##### 02 O 0830 2200
STA15 ##### 03 O 0830 2200
STA15 ##### 04 O 0830 2200
STA15 ##### 05 O 0830 2000
STA15 ##### 06 O 0830 1700
```

It seems to be your intention that the first set of times be in effect starting June 1, 2008. But, since they have "#####" as the date, that means that they are in effect right now.

You need to change tab17 so that only the lines you want to be in effect right now have "#####" as the date.
