
Webv: Lines for page.printResults in webvoyage.properties have no effect

- **Article Type:** General
 - **Product:** Voyager
 - **Product Version:** 8.2.2
-

Description:

Issue number: 16484-20530

Module: OPAC

Server platform affected:

PC OS: Windows XP

Browser & version: IE 7.0.5730.13

Releases replicated in: 7.0.1, 8.1.2, 8.2.0

Last version without bug: n/a

Expected results:

Customers should be able to set values of webvoyage.properties: page.printResults.page.title and page.printResults.page.heading lines to show in OPAC print results screen.

Actual results:

Changing page.printResults lines in webvoyage.properties has no effect on OPAC print results screen.

Workflow implications: Patrons cannot see clarifying text such as "This is a printer friendly view" and "Printer friendly view" added to page.printResults lines in print results screens.

Replication steps:

First note webvoyage.properties lines for skin, e.g.

```
page.printResults.page.title=WebVoy\u00E1ge Printable Record Page
```

```
page.printResults.page.heading=Printable View
```

Do a search in OPAC. Click box next to a title in the results list.

Click "Print" button above.

Use "Click to print" button in resulting screen.

Cancel print dialog box.

Resulting page lacks text in webvoyage.properties lines.

Workaround: none

Resolution:

Fixed in Voyager 8.2.2.
