
Problem with new SP mechanism (1-1280)

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 18.01
-

Description:

After setting the new parameters through the SP UTIL menu, I am getting the following error when attempting to FTP the new service pack. After reading the new SP mechanism notes I'm unclear what I need to do to get the missing file. Thanks.

Dear Customer,

The Aleph Service Pack download failed

waves.lib.uiowa.edu Aleph 18 copy 1

Please see ftp logs in /aleph01/TMPDIR

Error message is:

installation file detected Service Pack 1222. Binary installation file missing

Resolution:

Binary SP #1280 is now properly installed :

waves-18(1) USM01-ALEPH18>>ver

AIX4, waves.lib.uiowa.edu, Aleph 18 revision 01 copy 1, 09-May-2006

Oracle 10.2.0

Service Pack: 1280

PDS version: 1.3.20045

All servers, including Apache, are up and running.

The error was raised due to non standard installation location of Oracle.
