Description

245 subfield k does not display in GUI Brief view. There are however 5 instances of field 245 in xxx01/tab/edit_field.eng:

```
1 # 245## D B -6
2 a A ^
2 h A ^
2 b A ^
2 c A ^
2 f A ^
2 g A ^
2 k A ^
2 n A ^
2 p A ^
2 s A ^
1 # 245## 3 -6
2 #
1 # 245## 9 -6
2 #
1 # 245## S
2 a
1 # 245## P -6
2 a ^
2 b A ^ ^
1 # 245## K -c
```

What is the need of all these entries?

Resolution

As noted in the edit_field.eng header:

- ! "S" is used for pc_tab_short display in GUI
- ! "D" is used for "name tags" format in GUI and WWW (edit_doc_999)
- ! "3" is used for the paragraphs that make up the catalog card format (edit_doc.eng format 037)
- ! "P" is used for the paragraphs that make up the citation format (edit_doc.eng format 040)

"9" is included as the 245 Edit_field ID in various of your ./sys01/tab/edit_paragraph lines.

Adding subfield "k" to the xxx01/tab/edit_field.eng ...

1 # 245## S

... entry corrected the problem.
