

Change or remove item records using GDC

- **Product:** Voyager
 - **Product Version:** 8.0.0
 - **Relevant for Installation Type:** Total Care; Dedicated-Direct; Direct; Local
-

Question

Can item records be changed or removed with GDC?

Answer

- Global Data Change is capable of changing MARC format records.
- Item records cannot be changed using GDC, but starting with Voyager 9.0 they can be deleted as part of a record hierarchy.
- Item records can be edited and deleted via Pick and Scan.

GDC *can* delete all records, including item records, in a hierarchy (see Additional Information)

Additional Information

See the following articles for more information:
