

## Oracle errors when running „Update Full Text Index (manage-91)”

- **Article Type:** General
  - **Product:** Aleph
  - **Product Version:** 21
- 

### Problem Symptoms:

“Update Full Text Index (manage-91)” ends up with the following Oracle error messages:

Error found in log file: ORA-29855: error occurred in the execution of ODCIINDEXCREATE routine

Error found in log file: ORA-20000: Oracle Text error:

Error found in log file: ORA-01658: unable to create INITIAL extent for segment in tablespace TS3X

Error found in log file: ORA-06512: at "CTXSYS.DRUE", line 160

Error found in log file: ORA-06512: at "CTXSYS.TEXTINDEXMETHODS", line 366

Error found in log file: ORA-02373: Error parsing insert statement for table DPA01.Z91.

Error found in log file: ORA-29861: domain index is marked LOADING/FAILED/UNUSABLE

### Cause:

Size of ORA tables

### Resolution:

Oracle tablespace TS3X has to be enhanced. Afterwards “Update Full Text Index (manage-91)” runs successfully
