
Title with hyphen in it can't be found

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 20
-

Problem Symptoms:

Titles which have a hyphen in it surrounded by blanks can't be found

Example:

Title: "Digitales Zeitalter - Neue Wege im Verlagsgesch?ft am Beispiel Axel Springer"

When you search for the title including the hyphen you get no result

Cause:

Configuration

Resolution:

Set the hyphen in routine 90 of table ./xxx01/tab/tab_word_breaking to blank.

Example

```
./xxx01/tab/tab_word_breaking
```

```
90 # to_blank_2 ,;:-
```

Additional Information

Restart of ue_01 is required. Re-indexing is not necessary because the modification does not change the index entry but only the search phrase.
