
Direct link to A-Z list (Primo-Alma integration)

- **Article Type:** Q&A
 - **Product:** Alma
-

Question

Can we have a direct link to the A to Z list in Primo classic UI?

Answer

The following link should be used:

`http://<hostname>:<port>/primo_library/libweb/action/dlSearch.do?vid=UTDALMA&institution=UTDALMA&azSearch=true&fn=almaAzSearch&query=facet_atoz%2Cexact%2CA`

Primo NUI has a similar feature called Journal Search:

[https://knowledge.exlibrisgroup.com/...earch_\(New_UI\)](https://knowledge.exlibrisgroup.com/...earch_(New_UI))

The base URL should look like this:

`https://<hostname>:<port>/primo-explore/jsearch?vid=<...>&lang=<...>`
