

## How to repair corrupted BIB – HOL links?

- **Article Type:** General
  - **Product:** Aleph
  - **Product Version:** 20
- 

### Desired Outcome Goal:

How to repair corrupted BIB – HOL links?

### Procedure:

Create the z103 records using the following steps:

- 1) Clear z103 (=util a/17/1) in BIB and HOL libraries (and Course Reading if used)
  - 2) “Create Links Between Records (manage-12)” in ADM library with Parameter: delete all=Y, check old=Y
  - 3) “Create Links Between Records (manage-12)” in BIB library with Parameter: delete all=N, check old=Y
  - 4) “Create Links Between Records (manage-12)” in CRS library with Parameter: delete all=N, check old=Y
  - 5) “Create Links Between Records (manage-12)” in HOL library with Parameter: delete all=N, check old=Y
- 

### Additional Information

Please note that this process locks the Aleph system.
