
Selection status "withdrawn by publisher" prints as "removed"

- **Article Type:** General
 - **Product:** Verde
 - **Product Version:** 2
-

Description:

When printing an e-product record with selection status "withdrawn by publisher" it appears as selection status "REMOVED" in the print output (which is selection status value for "Withdrawn by publisher" in code tables).

The printout should present a label and not the value of selection status.

Emailing e-product displays the status correctly.
