
E-constituent loader rejects constituents when using ISBN as match

- **Article Type:** General
 - **Product:** Verde
 - **Product Version:** 2
-

Description:

When using the E-constituent loader, in the following conditions the constituents are rejected:

- ISBN is used in the match field
- The work expression already exists
- The work expression is empty (without e-constituent/e-package)

The loader should create new e-constituent for these work expressions and the error message should be changed.
