Description:

p_cir_04: “Loan Status” column is repeating the due date.

When the job is submitted with p_form_no "01", the report includes a Loan Status column. The Loan Statuses appear on the p_cir_04 submission form as Active, Lost, or Claims Returned. That is what should be appearing on the report. It is not.

Resolution:

This is a feature that is defined in the trn file global.trn under xxx01/form_eng directory.

The LOAN-STA option does the following:

Returns loan status, including due-date, transit, lost, recall etc...

If you do not want it, simply remove this line from global.trn (or loan-report.trn if it exists):

```
z36-status LOAN-STA S z36-rec-key
```

And put this instead:

```
z36-status TEXT S A=Active C=Claims_returned L=Lost
```
