
Incorrect OPAC display of “ILL Recently Closed” items.

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 19.01
-

Description:

Problem Description: Incorrect OPAC display of “ILL Recently Closed” items.

Actual Results: If there are more than 20 results, for the 10 day, 30 day or 60 day view of “ILL Recently Closed”, and there are different update dates, then only the latest 20 results will be displayed (the first screen full). Once the Next Page button is used no results are displayed and the “Previous Page” and “Next Page” buttons no longer cause the correct display to appear

Expected Results: ILL Recently Closed would work whether the requests have been closed on the same day or different days

Resolution:

Confirmed corrected in 20.2.5
