
The e-mail address 'instance@hostname' is not valid

- **Article Type:** General
 - **Product:** SFX
 - **Product Version:** 4
-

Description:

A problem has been found when an email is sent from the statistic screen; the "from" is instance@hostname which is not a valid email account and therefore the 'sendmail' blocks the mail.

Changing the e-mail address in the httpd.conf file (ServerAdmin <some address>) didn't affect the field.

Resolution:

Additional Information

instance@hostname sendmail not valid httpd.conf
