

Copying Production data to Test instance

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 20, 21, 22, 23
-

Description:

The data for the test libraries needs to be copied/refreshed from the Prod server.

What procedures should be used for doing this copying?

Resolution:

See document

[How to transfer configuration tables and Oracle tables from server A to server B 20101221.doc](#)

Additional Information

Note: the document was created for Aleph version 20 (the path contains reference to u20_x). Replace this with u22_x or similar according to the settings of your environment.

NOTE: See also, the article "[Refreshing Test server data Using Oracle Data Pump](#)".
