
Starting and Stopping the System

Note

This information is not applicable to Primo VE environments. For more details on Primo VE configuration, see [Primo VE](#).

This section includes the following topics, which describe how to start and stop the system servers:

- [System Startup and Shutdown Commands](#)
- [Shutting Down the Primo Servers](#)
- [Starting Up the Primo Servers](#)
- [Central Start/Stop Utility](#)
- [Verifying System Operation](#)
