

## Courses

### Note

(Leganto only) Currently, when reading lists can be associated with multiple courses, only the first course appears in Analytics. All courses associated with a reading list will appear in Analytics in an upcoming release (at which point all data, past and present, will appear).

Courses

Field	Description	Additional Information
Academic Department	The academic department of the course	
Academic Department Description	The description of the academic department of the course	
Course Code	The code of the course	
Course Created By	The creator of the course	
Course Creation Date	The date that the course was created	
Course Instructor	The name of the course instructor	If there is more than one instructor, the names are separated by a semicolon.
Course Instructor Primary Identifier	The primary identifier of the course instructor	
Course Instructor with Primary Identifier	The course instructor with the course instructor's primary identifier	This field is useful when a course has more than one instructor. This field allows you to display the instructors together with their primary identifiers.
Course Modification Date	The date that the course was modified	
Course Modified By	The person who modified the course	
Course Name	The name of the course	
Course Section	The section of the course	

Field	Description	Additional Information
Course Status	The status of the course	
Course Submit List By	The date by which all reading lists for the course should be submitted	
Course Term	The term of the course	
Course Visibility	Indicates if the course is archived or unarchived	
Course Year	The year of the course	
No list Expected	Indicates if the <b>No List Expected</b> checkbox for the course is selected or not	Possible values: Checked and Unchecked. You select this checkbox to alert the librarian that this course deliberately does not include a reading list. For more information on this checkbox, see <a href="#">Indicating that Courses Deliberately Have No Reading List</a> .
Number of Participants	The number of participants in the course	
Processing Department	The processing department of the course	
Processing Department Code	The code of the processing department	
Rolled Over From Code	The code of the course from which the course was rolled over	
School-Faculty	The school or faculty of the Academic Department in which the course was given	
Weekly Hours	The weekly hours of the course
