Adding 866_0 fields to ARC

- **Article Type:** General
- **Product:** Aleph
- **Product Version:** 21

Problem Symptoms:
Adding holding fields 866_0(a,z) to tab22_arc does not extract the fields to ARC

./xxx01/tab/tab22_arc
ARC-DEF-15 1 866 a
or
ARC-DEF-15 1 866 0 a
or
ARC-DEF-15 1 866## a

Cause:
Configuration

Resolution:
1. Add the following line to ./xxx01/tab/tab_expand to expand holdings information during the ETL.

! 1 2 3
!!!!!!!!!!-!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!-!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!>
CREATE-ARC expand_doc_bib_hol_usm

1. Change configuration in ./xxx01/tab/tab22_arc to look like this:

ARC-DEF-15 1 866## a
ARC-DEF-15 1 866## z

signs indicate that there could be different indicators.

3. Run Full ETL to reflect the change in ARC

Category: ETL (ARC)/ARC

Subject: Extract - ARC
