
Include e-books in Google Scholar Export

- **Article Type:** General
- **Product:** Primo
- **Product Version:** 4

Desired Outcome Goal:

Include e-books (monographs) in scheduled Google Scholar export

Procedure:

1) Edit crontab as instance user:

```
crontab -e
```

2) Add --object_type=BOOK option after --object_type=JOURNAL in the Google Scholar cron statement

Additional Information

* Example of Google Scholar cron with both serials (e-journals) and monographs (e-books):

```
30 07 * * 03 /exlibris/sfx_ver/sfx4_1/<instance>/admin/kbtools/export.cron --mode=manual --format=GOOGLE --original_title_format=both --object_type=JOURNAL --object_type=BOOK --service=getFullTxt --compress
```

* This export can also be used by Primo Central for determining availability of Primo Central results in Primo
