
ARC: "Unable to extend table SYS.AUD\$ by 128 in tablespace.SYSTEM"

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 20
-

Problem Symptoms:

The following errors occur in running ./arc_startup on the ARC server:

Checking Oracle ...

ERROR:

ORA-00604: error occurred at recursive SQL level 1

ORA-01653: unable to extend table SYS.AUD\$ by 128 in tablespace SYSTEM

ORA-02002: error while writing to audit trail

SP2-0751: Unable to connect to Oracle. Exiting SQL*Plus

Cannot connect to Oracle DB

Please retry after fixing

Cause:

Auditing is turned on and SYS.AUD file has filled up the SYSTEM tablespace

Resolution:

Implement the solution described for in Article 000002732 ("Unable to extend table SYS.AUD\$ by 128 in tablespace.SYSTEM") for Aleph. The solution for ARC is the same.
