
Display Item Process Name in Primo instead of NonCirculating Value

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 21
-

Desired Outcome Goal:

Display the item process name in Primo instead of NonCirculating value

Procedure:

1. vi ./xxx50/tab/tab_www_item_desc.Ing
2. Change the NonCirculating value in the relevant ITEM-status code to the value you want in column 3
3. restart WWW server via util w 3/1
