

How to update date format used by APIs

- **Article Type:** General
 - **Product:** Primo
-

Desired Outcome Goal:

To change date format used by RESTful APIs / vxws

Procedure:

1. SSH/Telnet to server as voyager user
2. Find and open vxws.properties for editing:
`cd /m1/voyager/xxxdb/tomcat/vxws/context/vxws/ui/eng/
vi vxws.properties`
3. Find date format property:
`date.format=yyyy-MM-dd`
4. Edit format after equals (=) symbol.
5. Save changes.

Additional Information

Date format in vxws.properties will impact display in Primo and any interface that uses Voyager's RESTful APIs. See also Article #23044, "How to change date format in My account/Loans list" for updates to make in Primo Back Office.
