## Configuring CCC Get It Now in Alma

Goal: Enable the ability to order articles on demand in Primo from Copyright Clearance Center through the CCC Get It Now service.

To activate CCC Get It Now electronic collections:

1. In the Community tab, perform a repository search for electronic collections that contain CCC Get It Now.
2. In the results, click the Activate link for the collection to activate.
3. On the Activation Wizard: Electronic Collection and Services Setup page (Step 1), configure the local electronic configuration information and full-text service parameters and click Next.
  - a. Verify Description includes the CCC Get It Now link.
  - b. Sample: CopyrightClearanceCenter delivery of fulltext for content the library doesn't subscribe to. Only available to US institutions with agreement with CCC. For more information, please see [here](#).
4. On the Activation Wizard: Linking Information page (Step 2), configure the linking parameters as required by CCC Get It Now service and click Next.
  - a. Mail and Bill are email addresses which will match
  - b. INST and Source are codes which will match
  - c. Add proxy if appropriate
5. On the Activation Wizard: Select Activation Method page (Step 3), specify the activation method (activate all, manual, etc.) and click Next.

Note: This should include all titles from which patrons can order articles.
6. On the Activation Wizard: Activation Summary page (Step 4), review activation selections and click Activate.

CCC Get It Now Appears in Primo on all **article** records.

\*Expanded instructions/added option in attached

\*Obtain the following parameters from CCC:

- Mail – email address
- Bill – email address (usually same as Mail)
- INST – code for institution
- Source – code for institution (usually same as INST)
- ID – blank if institution uses parameters from CCC
