
RDA changes for MAB customers

- **Product:** Aleph
 - **Product Version:** 22
 - **Relevant for Installation Type:** Dedicated-Direct, Direct, Local, Total Care
-

Question

Does Ex Libris provide instructions for the move to RDA in a MAB environment?

Answer

Instructions for the implementation of RDA are provided by the consortia libraries. You'll find attached the following documents which were kindly collected by UB Trier and HBZ:

Overview:

RDA_Implementierung_Aleph_20150331_final_NEU.pdf

Übersicht neue Felder_mit Indexierung_CSS.20150507.pdf

Aug. 2015:

| | |
|---------------------------------------|-------------------------|
| rda_lokal_20150807.tar.gz | Configuration tables |
| rda_lokal_20150807.pdf | Documentation |
| Checkliste_RDA_index_UBT_20150807.pdf | Check list for indexing |

Sept. 2015:

| | |
|----------------------------|----------------------|
| rda_lokal_20150923u.tar.gz | Configuration tables |
| rda_lokal_20150923u.pdf | Documentation |

Dez. 2015:

| | |
|------------------------------------|----------------------|
| rda_lokal_20151208u.tar.gz | Configuration tables |
| rda_lokal_20151208u.pdf | Documentation |
| fix_doc_mab_transl_relat_codes.zip | Hotfixes |

Additional Information

The following updates were provided in January 2016:

`$data_tab/tab_fix_rda_cmc_hbz`

Corrupted, corrected version attached, please copy to `$data_tab`.

`$data_tab/edit_field.ger`

Comment out definition for field 530 as the field is already handled in `tab_fix_rda_catenate_hbz`.

`$data_tab/www_tab_short.ger`

If used: change DTYP1 to DTYP# cause otherwise the column for data carrier (DTYP) remains always empty.

`$data_pc_tab/catalog/051_xx.ger`

Corrupted, corrected version attached, please copy to `$data_pc_tab/catalog/`

Afterwards run util m/7 and restart the PC server.
