

Search for items without call number

- **Product:** Aleph
 - **Product Version:** 22
 - **Relevant for Installation Type:** select the relevant: Dedicated-Direct,Direct,Local,Total Care
-

Question

Is it possible to search for all items that have an empty call number field?

Answer

Unfortunately there is no Aleph service or search functionality allowing the requested search. This could only be done with SQL and the following request:

```
select z30_rec_key from z30 where z30_call_no is null;
```
