Question

How to add field 856 (URL) to ACQ arrival notification (acq-arrival-message-00.xsl)?

Answer

The relevant section for acq arrival message in xxx01/tab/edit_paragraph.Ing is 301 (as assigned in bib_format, see below) so the field has to be added there:

```
301 1#### D ##  
301 245## D ##  
301 250## D ##  
301 260## D ##  
301 300## D ##  
301 856## D ##
```

xxx50/tab/bib_format lists all printouts and their according paragraphs in xxx01/tab/edit_paragraph.Ing:

```
acq-arrival-slip          301
```

Restart of PC server is required.
