
Title label missing in EndNote record export

- **Product:** Voyager
 - **Product Version:** 7.0.2 - 9.2.0
 - **Relevant for Installation Type:** Dedicated-Direct, Direct, Local, Total Care
-

Symptoms

EndNote export format does not include label for Title

Defect Status

Issue VYG-4679 is resolved in Voyager 10.1.0.

Replication Steps

- 1) In WebVoyage, view any record with a title.
- 2) On the record detail page, click Export
Choose EndNote Citation format from drop-down.
- 3) Most fields will have a label and value. Title field has no label.
- 4) Note that in default config file for EndNote (`[skin]/xsl/contentLayout/configs/export/endNoteCitationConfig.xml`) there is no `<displayTags>` element for the title field.

Workaround

Edit `endNoteCitationConfig.xml` to replace `<titleTags>` element with `<displayTags>` element.

Before:

```
<titleTags label="Title:">
  <displayTag field="130" indicator1="X" indicator2="X" subfield="aplskfmnor"/>
  <displayTag field="240" indicator1="X" indicator2="X" subfield="aplskfmnor"/>
  <displayTag field="730" indicator1="X" indicator2="X" subfield="aplskfmnor"/>
  <displayTag field="245" indicator1="X" indicator2="X" subfield="abcfknps"/>
</titleTags>
```

After:

```
<displayTags label="Title:">
  <displayTag field="130" indicator1="X" indicator2="X" subfield="aplskfmnor"/>
  <displayTag field="240" indicator1="X" indicator2="X" subfield="aplskfmnor"/>
  <displayTag field="730" indicator1="X" indicator2="X" subfield="aplskfmnor"/>
  <displayTag field="245" indicator1="X" indicator2="X" subfield="abcfknps"/>
</displayTags>
```
