

## How do I disable the cancellation of current requests via WebVoyage?

- **Product:** Voyager
  - **Product Version:** All
  - **Relevant for Installation Type:** Dedicated-Direct, Direct, Local, Total Care
- 

### Question

How do I disable the cancellation of current requests via WebVoyage?

### Answer

1. Edit the `webvoyage.properties` file in `/m1/voyager/yyydb/tomcat/vwebv/context/vwebv/ui/{skin}`
  2. Set `page.myAccount.reqPending.cancel.preference=N`
  3. Save changes.
