

Aleph 22 course-04 log: "Command not found"

- **Product:** Aleph
 - **Product Version:** 22
 - **Relevant for Installation Type:** Dedicated-Direct, Direct, Local, Total Care
-

Symptoms

The first line of the course-04 log file says:

```
s: Command not found.
```

Defect Status

Corrected by v22 rep_change 2187.

Workaround

Change the first line of \$aleph_proc/p_course_04 from:

```
s p_course_04
```

to:

```
# p_course_04
```
