## BIB information in loan session window in CIRC GUI

Is it possible to modify the BIB information appearing in the loan session window? Currently there is author and title displayed but it should be only the title.

- **Product:** Aleph
  - **Product Version:** 22, 23
  - **Relevant for Installation Type:** Dedicated-Direct, Direct, Local, Total Care

### Question

Is it possible to modify the BIB information appearing in the loan session window? Currently there is author and title displayed but it should be only the title.

### Answer

The setting can be updated in xxx01/tab/edit\_paragraph.Ing, paragraph for the loan session is 210.

Standard setting:

```
!* Short BIB in for loan/photo/hold list in USER & CIRC  
210 LOC## D  
210 1#### D ##  
210 245## 9 ##^:^
```

Delete the line with 1##### and the author will not be displayed anymore.
