

## Lock catalog record automatically

- **Product:** Aleph
  - **Product Version:** 20, 21, 22, 23
  - **Relevant for Installation Type:** Dedicated-Direct, Direct, Local, Total Care
- 

### Question:

Can we setup any tab to lock a catalog record if a librarian opens a record from the server?

### Answer:

You can define the number of seconds for `default_lock_period` and `doc_lock_period` (you can reach up to 24 hours this way).

There is no way to permanently lock a record.
