
AlephMail error in Circulation: "Error sending to all recipients"

- **Product:** Aleph
 - **Product Version:** 20, 21, 22, 23
 - **Relevant for Installation Type:** Dedicated-Direct, Direct, Local, Total Care
-

Description:

we have encountered the following error when sending email to users in Circulation:

```
AlephMail Error: Error sending to all recipients
```

We have correct smtp settings in alephcom.ini - could you please advice how to fix it?

Resolution:

There was a rogue email address in alephcom.ini
