

Which OS versions are supported by Aleph 23?

- **Product:** Aleph
 - **Product Version:** 23
 - **Relevant for Installation Type:** Dedicated-Direct, Direct, Local, Total Care
-

Question

Which OS versions are supported by Aleph 23?

Answer

Supported OS versions for Aleph 23 are:

- * Solaris 10 and 11 based on SPARC or x86 processors
- * Linux Red Hat 6 and 7 (RH6 and RH7)

Ex Libris does not approve use of Sun T-Series servers as production environment.
