

Installing older Service Pack

- **Product:** Aleph
 - **Product Version:** 20, 21, 22, 23
 - **Relevant for Installation Type:** Dedicated-Direct, Direct, Local, Total Care
-

Description

Are older service packs available somewhere? Or is it just the current service pack which can be installed?

Resolution

The util sp service-pack utility always gets the current service pack. There is no ability to get any older service pack.
