Question

TheResourceSharingShippingSlipLetter is being received by a staff user via email. This is not configured anywhere in Alma. Why does the user receive the email?

Answer

1. The ResourceSharingShippingSlipLetter is sent when clicking the Ship Item link for a lending request and then selecting Automatically Print Slip = Yes on the Shipping Items page.
 2. The email is then sent to the 'currently at' desk printer and to the email of the person to whom the request is assigned.
