
ADAM objects (=pdf files) will not be indexed in Primo

- **Product:** Aleph
 - **Product Version:** 20, 21, 22, 23
 - **Relevant for Installation Type:** Dedicated-Direct, Direct, Local, Total Care
-

Problem:

ADAM objects (=pdf files) will not be indexed in Primo

Cause:

The link for the object that is sent by Aleph is not a direct link but contains additional information. Therefore it can't be opened by Primo and the object can't be indexed.

Solution:

Modify the link on Aleph side so that Primo is able to index the PDF file. The following should be adjusted:

xxx01/tab/tab_expand [Add a line]

```
FULLP expand_doc_bib_z403 TAG=8567,CONF=expand_doc_bib_z403_ft4primo,USAGE-TYPE=VIEW
```

xxx01/tab/expand_doc_bib_z403_ft4primo [New table]

```
! 2 3 4 5
!-!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!-!
# z403-f-directory          a space      X
# z403-f-filename          b space      X
```

xxx01/tab/import/ft4primo_edp.fix [New table]

```
! 2 3 4 5 6 7 8 9
!-!!!!!!-!!-!!-!!!!-!!!!-!!!!!!-!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!-
!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!
1 8567                      REPLACE-STRING                      $$a$xxx50_dev/xxx50/
objects/view/5,$$uhttp://opac.xxxxx.xx:80
2 8567                      REPLACE-STRING                      $$b,/
```
